

# Home (Partner Portal)

When you first log into the public site you'll be taken to the sharing portal and to the Partner Home Page..

The content of this home page will change from time to time and contain announcements, resources and tips from your host organization's System Administrator.

## Home Page

Here's a sample Home Page. The content on your portal's home page may be quite different. Also - the colors and design of the partner portal are likely be different than those pictured in these articles.
